Education

2013–Present **Master** of Computer Science
GPA: 4.0/4.0
Algorithms
Artificial Intelligence
Theory of Computation

The University of San Francisco

2009–2013 **Bachelor** of Mechanical Design

Shanghai Jiao Tong University

Experience

2012–2013 **GitCafe** Full-stack Developer and System Administrator
Develop new features, fix bugs
Keep components in edge and maintain the system
Main achievements:

Shanghai, China

- Became the maintainer of Guard-Rails gem
- Refactored the Git hosting services to improve robustness
- Added support of Git operations via HTTPS
- Added support of Wiki for projects hosting on GitCafe
- Added support of Pages hosting with custom domains
- Added support of Pull Request system for collaboration
- Designed the internal API for Git and accounting service
- Reduced the response time by using workers in background
- Set up monitor system for all components with God and Monit
- Improved the internal workflow with Guard, Zeus and Git
- Improved user experience

2011–2012 **GitCafe** Intern

Shanghai, China

Main achievements:

- Finish the internationalization (i18n) for Chinese
- Locale detector for Ruby on Rails
- Add change password or email function
- Supplement test suit

Awards

2006 **National Olympiad in Informatics in Provinces (NOIP) 2006**
First Prize

China Computer Federation

2007 **National Olympiad in Informatics in Provinces (NOIP) 2007**
First Prize

China Computer Federation

2008 **National Olympiad in Informatics in Provinces (NOIP) 2008**
First Prize

China Computer Federation
